# HARRIER.EV

Harrier.ev, a Bold, Powerful, Intelligent, Electric All-wheel drive SUV, born of legendary pedigree, offers an extraordinary exterior design and future ready connectivity. This 5 seater monocoque SUV is engineered on the OMEGA Architecture, derived from the legendary Land Rover D8 architecture and developed in collaboration with Jaguar Land Rover. With Harrier.ev we are extending this pedigree to the Gen 2 EV architecture, delivering an uncompromised range and top notch advanced features

The Harrier.ev is a distinctive, dynamic and elegant SUV. Its characteristic elongated Coupe-like silhouette reflects the exhilarating and active customer lifestyle and aspirations. This seductive silhouette is emphasised with a two tone roof and bright garnish over the windows.

Precision and efficiency are reflected in every aspect of the car's DNA. The clean surfaces, crisp lines and sharp intersections are highlighted by a futuristic "Empowered White" body colour.

The uninterrupted wide DRLs with crisp functional and emotive lighting are high-tech yet human. The serrated turbine blade wheels are functionally sculpted for aerodynamic efficiency.
